This Installation Plan identifies available documents that support field installation of a GE MS6001B Gas Turbine. It is solely intended for internal General Electric personnel job planning purposes. Field Engineering Manual (EM) documents are developed for GE Power Systems internal use only. They are not to be viewed by or given to customers.

CONTENTS

Ref. No.	Description
DN 501	MS6001B Gas Turbine Installation Guide
EM 5315	MS6001B Gas Turbine and Generator Installation Procedure
EM 5316	MS6001B Load Coupling Installation
EM 5016	MS6001B Installation Documents
EM 5017	MS6001B Use of Turbine/Generator "Customer Drawings"
EM 5028	MSB001B Inspection of Site Interfaces
EM 5036	MS6001B Installation of Sub-Sole Plates and Shim Packs
EM 5040	MS6001B Accessory Base Equipment Alignment
EM 5051	MS6001B Air Inlet Duct Installation and Maintenance
EM 5055	MS6001B Exhaust Duct and Stack Installation and Maintenance
EM 5080	MS6001B Field Assembly of Cooling Water System
EM 5214	Field Inspection of Gas Turbine Magnetic Speed Pickups
EM 5024	Installation Tools and Expendables
EM 5213	Fuel Gas Stop Ratio/Control Valve Inspection
EM 5216	Gas Turbine Lube Oil Water Cooling Bundle Replacement
EM 5217	Gas Turbine Lube Oil Filter Cartridge Inspection
EM 5185	Gas Turbine "As–Installed" Drawings
